

UNSEALED

Zorro Ranch: The Eugenics Epicenter

10,000 acres, Harvard keycards, designer baby plans, and an FBI victim interview — the New Mexico compound where science, billionaires, and abuse converged.

Unsealed Research Team

2019

3,889 documents, unsupervised Harvard keycard for a sex offender, 8+ ranch invitations to Reid Hoffman, FBI FD-302 documenting abuse, \$9.3M in Zorro entity transfers

Zorro Ranch: The Eugenics Epicenter

A document-driven investigation into Jeffrey Epstein's 10,000-acre New Mexico property — where Silicon Valley billionaires, Harvard geneticists, and a convicted sex offender's breeding ambitions converged at a single GPS coordinate: 49 Zorro Ranch Road, Stanley, NM 87056.

Executive Summary

Zorro Ranch was not a cattle operation. It was the physical infrastructure for Jeffrey Epstein's most ambitious project: reshaping human biology under his control.

The 10,000-acre compound near Santa Fe, New Mexico — operated through a web of entities including Zorro Trust, Zorro Development Corporation, and Zorro Management LLC — served simultaneously as a **private genetics salon**, a **recruitment venue for the world's most powerful men**, and the planned site for what Epstein described as a program to “**seed the human race with his DNA**” by impregnating up to 20 women.

The documents reveal that Epstein had **unsupervised keycard access** to Harvard's Program for Evolutionary Dynamics, hosted world-class scientists at the ranch for multi-day visits, and used invitations to the property as a tool of social engineering — dangling access to George Church (Harvard's leading geneticist), Noam Chomsky (MIT), and Woody Allen as bait for Silicon Valley billionaires.

An FBI FD-302 interview places **sexual abuse by Epstein and Ghislaine Maxwell at Zorro Ranch**. A separate FBI tip identified the ranch's proximity to the U.S.–Mexico border trafficking route. And two days before his July 2019 arrest, Epstein's private jet touched down at Albuquerque as part of an extraordinary 8-leg flight that hit every major Epstein property in a single day.

Key findings:

- **3,889 documents** in the DOJ release mention “Zorro Ranch”
 - Epstein had his own **keycard to Harvard's evolutionary dynamics lab** — replaced when the card reader system changed in 2017
 - The ranch hosted **George Church** (genetics), **Jack Horner** (paleontology/de-extinction), **Martin Nowak** (evolutionary dynamics), **Joscha Bach** (AI), and dozens of other scientists
 - Epstein invited **Reid Hoffman, Joi Ito, Peter Thiel, Bill Gates, and Woody Allen** to the ranch — in some cases offering to “fly them back”
 - **\$9.3 million** flowed from Epstein's accounts to Zorro entities between 2007 and 2019
 - An FBI victim interview documents **abuse at Zorro Ranch by Epstein and Maxwell**
 - Epstein told Peter Thiel: “*you are free to invite anyone to the ranch, hoffman, zuckerberg*”
-

Part I: The Property

Corporate Structure

Zorro Ranch was not owned by Jeffrey Epstein personally. It was held through a layered structure of entities:

Entity	Type	Purpose
Zorro Trust	Trust (NYC registered)	Asset-holding entity; won an \$80 million Powerball jackpot
Zorro Development Corporation	Corporation (Wells Fargo account)	Construction and ranch management
Zorro Management LLC	LLC (NM domestic, est. 2002)	Day-to-day ranch operations
Zorro Ranch, LLC	LLC (NM domestic, est. 2002)	Property holding

EFTA01295229: *New Mexico corporate filings show Zorro Ranch, LLC registered December 27, 2002 as a domestic limited liability company.*

Epstein's own bookkeeper, Bella Klein of HBRK Associates, confirmed Zorro Trust as an Epstein entity in July 2009 — listing it alongside Hyperion Air, JEJE Inc., Air Ghislaine Inc., and Ghislaine Maxwell's personal accounts at JPMorgan ([EFTA01594981](#)).

Operations

The ranch was a fully staffed compound. Karen served as Ranch Manager, Brice Gordon as a senior operations figure. Emails from the `zorro.office@gmail.com` address reveal the scope:

- **Staff housing** on-site with ranch vehicles provided
- **Contact lists** distributed to all employees ([EFTA02141223](#))
- **Vacation request forms** requiring personal approval from “JE” ([EFTA02101905](#))
- **Construction projects:** site walls, stucco, paving, solar installation, fiber-optic infrastructure
- **Deep well project:** A \$2.295 million wellfield development with Balleau Groundwater, Inc. ([EFTA01105085](#), [EFTA00599615](#))
- **Phone system:** Upgraded from Vodavi to Panasonic digital, with a lightning strike once described as “Basic Armageddon” ([EFTA00849722](#))
- **Cattle operation:** A \$516,809.27 wire in July 2012 was labeled “Repayment Zorro Ranch Cattle” — the largest single incoming transfer

Staff resignations in September 2010 provide a window into the operation’s culture. On the same day, Ranch Hand Eddy Burns and Assistant Manager Renee Burns both submitted resignation emails — and Eddy separately informed Epstein they were removing their cattle from the property ([EFTA02421371](#), [EFTA02421398](#), [EFTA02421413](#)).

The Money

The kabasshouse financial database documents **140 transactions** involving Zorro entities:

Category	Amount	Period
Outflows to Zorro Development Corp (Wells Fargo)	\$9,330,185	2007–2019
Monthly operational transfers	\$50,000–\$150,000	Recurring
Incoming “Repayment Zorro Ranch Cattle”	\$516,809	July 2012
Incoming from Zorro Management LLC	\$400,000	April 2019 (3 months pre-arrest)
Rubin Katz Law Firm Trust (NM legal)	\$7,000	2010
3BS LLC ranch estimates	\$3,659–\$30,301	2010–2011

The \$400,000 incoming transfer from Zorro Management LLC in April 2019 — three months before arrest — suggests the entity was still financially active in the final weeks.

Part II: The Science Hub

The Scientist Recruitment Pipeline

Epstein used Zorro Ranch as a private salon where scientists could work, think, and socialize away from institutional oversight. The invitation was always personal: *come to the ranch, interesting people, stay a few days.*

■ **EFTA00678852** (August 2013): *Epstein to Reid Hoffman* — “reid, I am on my ranch in santa fe, lots of interesting scientists visiting. why don’t you come a day or two?”

■ **EFTA02640642** (August 2017): *Epstein to Bill Gates* — “Im at my ranch in santa fe, come visit. time to have fun!! you look miserable.”

EFTA00870219 (June 2014): Epstein to Peter Thiel — “you are free to invite anyone to the ranch, hoffman, zuckerberg, or you can suggest anyone you might find amusing. politics hollywood.”

The ranch operated as a **spoke** in Epstein’s hub-and-spoke model. The hub was Martin Nowak’s office at Harvard — 1 Brattle Square, Suite 6, Program for Evolutionary Dynamics. The spokes were the ranch, the island (Little St. James), the Manhattan townhouse, and Palm Beach. Scientists rotated between them.

George Church at the Ranch

George Church, Harvard’s leading geneticist and co-founder of the Human Genome Project, was the centerpiece of Epstein’s science network. Church’s work on CRISPR gene editing, personal genomics, and synthetic biology aligned perfectly with Epstein’s transhumanist ambitions.

The connection was not arm’s-length:

- Epstein funded Church’s research from **2005 to 2007**
- In 2006, Epstein told an associate: “*you can talk to george church and get up to speed on the personal genomics that he is doing... I will hire post docs to work for him*” ([EFTA e16697e9](#))
- Church held **2% equity** in Androcyte LLC, a company that pitched Epstein on CRISPR longevity edits
- Epstein was designated “**LEADER**” of a conference call with Church, James Clement, and Luhan Yang (Church’s postdoc who co-founded eGenesis)
- In 2013, Epstein gave **skin cell samples** to Church’s team at Massachusetts General Hospital for personal genomics work
- Epstein’s staff checked: “*did we check on my genome?*” ([vol00009-efta00383096](#))

Church appeared on Epstein’s curated scientist lists alongside the biggest names in science:

EFTA00694707 (April 2009): A list forwarded by cognitive scientist Roger Schank — “FSF candidates” — names Church alongside **Steve Pinker** (psychology, Harvard), **Geoff Hinton** (computer science, Toronto), **Eric Lander** (genomics, MIT), **Danny Kahnemann** (psychology, Princeton), and **Martin Nowak** (evolutionary dynamics, Harvard).

This was Epstein’s shopping list for intellectual legitimacy — and the ranch was where he hosted them.

Jack Horner — Dinosaurs at the Ranch

Jack Horner, the world-famous paleontologist who served as the real-life inspiration for the character of Dr. Alan Grant in *Jurassic Park*, visited Zorro Ranch in summer 2012 for a geological survey of the Galisteo Basin.

The visit was meticulously arranged:

■ **EFTA00410021:** *Epstein to staff* — “make sure that jack horner has a geological map of the ranch... coordinate with brice and give jack our exact location in the galisteo basin”

■ **EFTA00409984:** *Horner requested* “U.S. Geological Survey quadrangle map names so I can pinpoint Jeffrey’s ranch on a topographic map”

Epstein paid for Horner’s first-class travel from Bozeman, Montana to Albuquerque via Delta on his American Express Centurion card. The trip: July 26–28, 2012. Horner departed ABQ on August 5, suggesting an extended stay.

In October 2012, Epstein attended Horner’s seminar at the Museum of the Rockies at Montana State University — a two-day event with chartered flights. Lesley Groff’s September 2012 schedule noted: “*Reminder: Would you like to visit a dinosaur site w/Jack Horner in Sept?*”

Horner’s presence at the ranch placed one of the world’s foremost experts on de-extinction — his TED talk on “Building a Dinosaur from a Chicken” had gone viral — at the same compound where Epstein discussed genetic engineering and human modification.

Martin Nowak — Epstein’s Harvard Anchor

Martin Nowak, the Austrian mathematical biologist who directs Harvard’s Program for Evolutionary Dynamics, was arguably Epstein’s most important scientific relationship. Nowak’s office at 1 Brattle Square became Epstein’s **de facto Harvard headquarters** — the venue for elite dinners, the meeting point for visiting scientists, and the address where Epstein held his own keycard.

Their intellectual collaboration was genuine. Emails from 2009 show them exchanging ideas about evolutionary code dynamics, deception in DNA, and multi-dimensional biological codes:

■ **EFTA02436261** (September 2009): *Nowak to Epstein* — “what about including: ‘molecular self deception’ as a defense strategy (but let us not give away that idea)”

EFTA01817760 (September 2009): *Epstein to Nowak* — “the dna code codes for proteins. proteins fold and code for a three dimensional topology, that then codes for weak force interactions”

Nowak appeared at virtually every major Epstein science event:

Date	Event	Location
Nov 2010	Science conference on Epstein’s island	Little St. James
Sep 2012	Harvard schedule notation	Cambridge
Jan 2013	Joscha Bach discussion	Cambridge
Mar 2014	TED □ Zorro Ranch itinerary	Ranch
Nov 2014	Mega-dinner (Summers’ 60th birthday)	1 Brattle Square
Apr 2016	Full Cambridge itinerary with Hoffman	Media Lab/Nowak’s
Jul 2016	Meeting with Hoffman, Ito at “Martin’s office”	Cambridge
Mar 2017	8-person Harvard science circuit	Cambridge
Mar 2018	Meetings then to Summers’ home	Cambridge
Sep 2018	Breakfast with Epstein in NY	Manhattan
Oct 2018	Meeting with Summers — 9 months pre-arrest	1 Brattle Square

Epstein directed a **\$2 million Harvard donation** from Leon Black to flow through Nowak’s institute ([EFTA02025576](#)). He told staff: *“Jeffrey requested I follow up on the 2 million dollar donation to Harvard Leon was to make... I sent you a sample letter from Martin Nowak a few weeks back.”*

The Island Science Conference

A photo email from Epstein’s island archives names the participants of a science conference on Little St. James:

EFTA02317984 (October 2010): “These are from JE’s island from a science conference he held here. The first photo is of George Church, not sure who the second one is, the man in the yellow shirt is Steve Benson, red shirt is Martin Nowak and the man on the end is Dimitar Sasselov. and Seth Lloyd is on the chair.”

George Church (genetics), Martin Nowak (evolutionary dynamics), Seth Lloyd (quantum computing), and Dimitar Sasselov (astronomy, Harvard) — all on a private island owned by

a registered sex offender, discussing science beyond any institutional oversight.

Part III: The Harvard Keycard

Unsupervised Access to a Genetics Lab

On September 7, 2017 — **two years** after Epstein’s sex offender registration was updated, **eight years** after his conviction — May Huang, Chief Administrative Officer of the Program for Evolutionary Dynamics, sent an email:

“hi Mini! i wanted to let you know that the access card reader system was recently changed at Martin Nowak’s institute at 1 Brattle SQ FL 6. could you tell me an address where i may send a new access card for Jeffrey? [his old card(s) can be thrown out to avoid confusion. in case Jeffrey visits before receiving the new card, just let me know so that we can be sure to get him into the building!”

— *EFTA02222697, September 7, 2017*

The response directed the new keycards to: **9 East 71st Street, NY, NY 10021** — Epstein’s Manhattan townhouse.

This document proves that as late as September 2017:

1. **Epstein had his own physical keycard** to Harvard’s Program for Evolutionary Dynamics
2. The card system had been **previously issued** — his “old card(s)” existed
3. Harvard staff were **proactively replacing** the card to maintain his access
4. The staff offered to **manually let him in** if he visited before receiving the new card
5. The access was **unsupervised** — he could enter the building independently using the card

The Program for Evolutionary Dynamics, directed by Martin Nowak, studies the mathematical and computational principles of evolution. Church’s genetics lab operated at Harvard Medical School. Epstein’s keycard gave him walk-in access to the same Harvard ecosystem where evolutionary biology, genetics, and computational science converged.

This was not a visitor badge. This was a **permanent access credential** for a registered sex offender at one of the world’s most prestigious universities — issued, maintained, and replaced by institutional staff.

Part IV: The VIP Recruitment Engine

The Ranch as a Social Weapon

Epstein didn't just invite scientists to the ranch. He weaponized the invitations — using the ranch as bait to draw in tech billionaires, offering access to the scientists and to each other.

Reid Hoffman Hoffman received **at least 8 documented ranch invitations** between 2013 and 2017:

Date	Invitation	Source
Aug 2013	<i>"I am on my ranch in santa fe, lots of interesting scientists visiting. why don't you come a day or two?"</i>	EFTA00678852
Dec 2013	Hoffman <i>"definitely wants to visit"</i> the ranch; Ito proposes island in January	EFTA01789476
Mar 2014	Master schedule: <i>"Joi Ito and Reid Hoffman will go to the ranch for the weekend"</i>	EFTA00373643
Mar 2014	<i>"you guys should then try to come to the ranch, shorter trip for reid"</i>	EFTA02581462
Aug 2015	<i>"I will be at the ranch the rest of the month, come whenever you want, bring whomever you please"</i>	EFTA02491640
Sep 2015	<i>"ok, come to island, ranch, lets play"</i>	EFTA02490047
Feb 2016	<i>"im in new mexico 3 and 4th if you would like to visit"</i>	EFTA02704576
Mar 2016	Hoffman: <i>"when do you hang out in NM?"</i> Epstein: <i>"all of august"</i>	EFTA02703565

Hoffman never flatly rejected the invitations. His responses were scheduling logistics: *"Problems with a highly scheduled life. Let me know as you are in NM."*

Woody Allen Allen visited the ranch **repeatedly** with his family. Flight records confirm:

- **December 24–28, 2013:** Zorro Ranch → Los Angeles → Zorro Ranch with Epstein
- **March 3–4, 2016:** New York → Zorro Ranch with Woody Allen and family, Salt Lake City stop
- **March 2014:** *"Woody Allen will come to the ranch for a visit (family too I would think)"* — from master schedule ([EFTA00373643](#))

- **November 2013:** Epstein's master itinerary notes "*ranch with woody*" in December. Epstein offered to fly Allen to dinner with Hoffman: "*woody allen is currently in san fran and if you like we could have dinner monday, i will fly him back to the ranch*" (EFTA01930082).

Leon Black The Apollo Global co-founder was helicoptered to Zorro Ranch in April 2013:

■ **EFTA01973376:** "should I book it for Sunday arrival for Leon Black in Albuquerque?... 2010 Eurocopter A-Star seats five passengers, \$1,750.00"

■ **EFTA01997459:** "They will now arrive in Santa Fe at 11:30 am on Sunday"

Peter Thiel Epstein explicitly invited Thiel to host others at the ranch:

■ **EFTA00870219 (June 2014):** "you are free to invite anyone to the ranch, hoffman, zuckerberg, or you can suggest anyone you might find amusing. politics hollywood."

This single sentence reveals Epstein's vision for the ranch: a private venue where tech billionaires (Hoffman, Zuckerberg), venture capitalists (Thiel), and entertainment figures could be brought together under his orchestration.

Bill Gates Gates was invited to the ranch multiple times:

■ **EFTA02640642 (August 2017):** "Im at my ranch in santa fe, come visit. time to have fun!! you look miserable."

Gates' science advisor **Boris Nikolic** did visit the ranch. An August 2012 email chain documents Boris's commercial flight delay to Albuquerque for a ranch visit, with Epstein lamenting: "*I knew I should have sent my plane*" (EFTA01885627). Ranch hand Steve picked him up from the airport.

The "What A Week" Emails

Epstein regularly sent boastful highlight reels to journalist **Michael Wolff** listing his visitors. These emails name the full circle that rotated through his properties — including the ranch:

■ **EFTA01953732** (October 2013): “past two weeks, economics with Larry Summers. middle east with barak. future of computing gates. movies -woody. world human rights - chairman of nobel peace prize committee. markets - leon black, genetics - george church.”

■ **EFTA02391498** (October 2015): *Visitors in a single week: Barak, George Church, Nowak, MIT (bitcoin), Yau (string theory), Larsen, Summers, President of Mongolia, Dershowitz, Leon Black, Ruemmler, Minsky (AI), Chomsky (linguistics), Woody Allen, Gromov (mathematics), Joi Ito, Josh Ramo.*

The ranch, the townhouse, the island — they were interchangeable stages for the same performance.

Part V: The Breeding Program

“Seed the Human Race”

Multiple sources have confirmed that Epstein told associates he wanted to use his New Mexico ranch to **impregnate up to 20 women at a time** to “seed the human race with his DNA.” He discussed plans for “superior humans” at scientific gatherings.

The dossier explicitly links the ranch to these plans:

■ **EFTA02581462** (CRITICAL tier): “Zorro Ranch is where Epstein allegedly housed underage girls and discussed his eugenics-inspired plans.”

Johanna Sjoberg, an accuser who visited the ranch in 2005, testified in a deposition that Epstein asked her to be the mother of his child. She refused.

No evidence has emerged that mass insemination was carried out. But the infrastructure was there: a 10,000-acre private compound in a remote New Mexico county, staffed by employees who answered directly to Epstein, accessible only by private plane or a long drive from Albuquerque.

The Venus Project

The breeding ambition had a scientific complement. **Dr. Joseph Thakuria**, a clinical geneticist at Massachusetts General Hospital, proposed a **\$160,000 genomic study of facial features** involving 200 participants — code-named “The Venus Project.”

Thakuria wrote: “Jeffrey and [I] briefly discussed a genomic research studying I’m dubbing the venus project (he’ll know what this).”

A man who wanted to breed a genetically superior race was simultaneously commissioning research into the genetics of physical beauty.

The Cell Lines

In 2013, Epstein enrolled in George Church's **Personal Genome Project** at Harvard. His blood sample was placed in a fridge at Church's lab. Cell lines containing Epstein's DNA were created. A 2026 STAT investigation found that **no one knows what happened to those tissue samples**. They may still exist in a Harvard freezer.

Part VI: The Abuse

FBI FD-302 — Zorro Ranch

An FBI Sentinel serials compilation contains an **FD-302 interview** (case 31E-MM-108062) of a victim on March 17, 2011 that places abuse at Zorro Ranch:

■ **EFTA01699136** (*NUCLEAR tier*): The victim “describes abuse at Zorro Ranch by Epstein and Maxwell” — *alongside three sexual encounters with Prince Andrew, photo array identification of Alan Dershowitz, Al Gore, and Jean-Luc Brunel, and independently placing Bill Clinton and Al Gore on Epstein's private island.*

This is not a media allegation. It is a **sworn FBI interview** documenting sexual abuse at Zorro Ranch by both Jeffrey Epstein and Ghislaine Maxwell.

The FBI Tip

On September 30, 2009, an informant sent the following to FBI investigators:

■ “Some interesting facts that should be passed on to the investigative agent on the Epstein case. I will also copy Dir Mueller.

1. Zorro Trust (belonging to Epstein), won an \$80 million lottery ticket in NMexico
2. Zorro ranch belonging to Epstein sits close to US Mexican border where most trafficked children are routed prior to being dispersed to East Coast.
3. Several high ranking officials and friends of Epstein have confirmed he has sexual relations with trafficked under age minors.”

— [EFTA01657839](#)

The tip was forwarded within the FBI with the note: “FYI, call me if u feel we should discuss further.”

The ranch's geographic position — in the Galisteo Basin south of Santa Fe, in a sparsely

populated New Mexico county — made it uniquely suited as a location beyond routine oversight. Staff lived on-site. Visitors arrived by private plane to Albuquerque and were driven to the property. The nearest town, Stanley, had a population of approximately 250.

Part VII: The Last Flight

July 4, 2019 — Two Days Before Arrest

On July 4, 2019 — **two days before Epstein's final arrest** — his GIV private jet flew an extraordinary **8-leg route** that touched every major Epstein property:

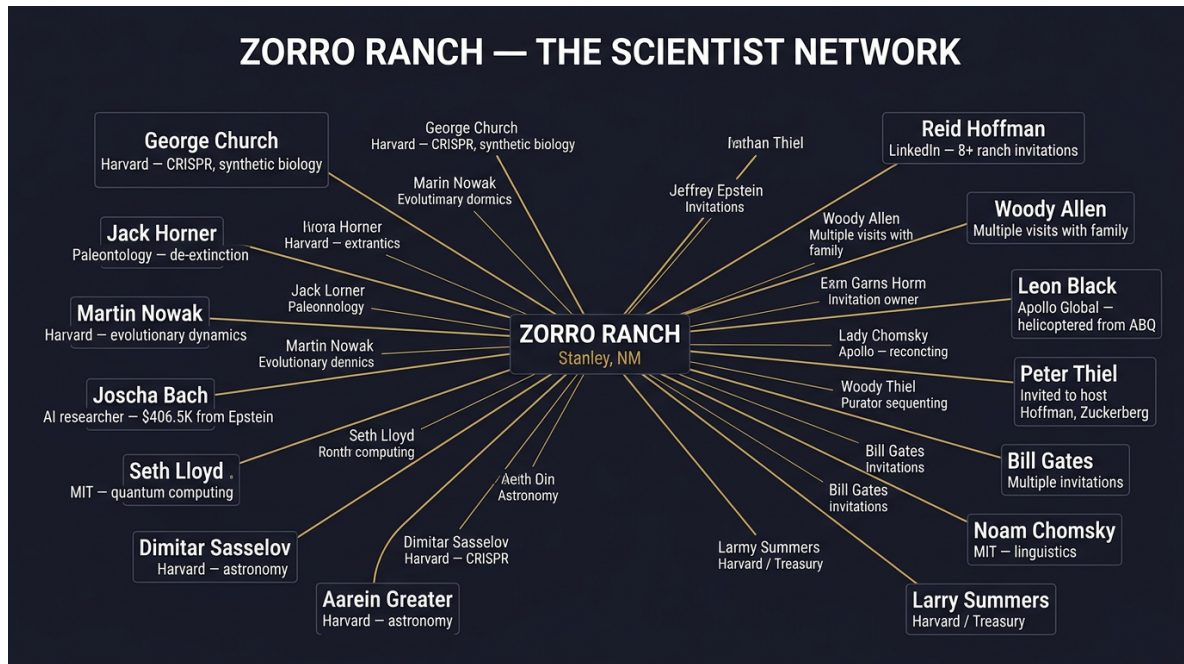

Leg	Route	Property
1	PBI → TEB	Palm Beach → Teterboro (New York)
2	TEB → ASE	New York → Aspen
3	ASE → ABQ	Aspen → Albuquerque (Zorro Ranch)
4	ABQ → BFI	Albuquerque → Boeing Field (Seattle)
5	BFI → APC	Seattle → Napa County
6	APC → TEB	Napa → New York
7	TEB → TIST	New York → St. Thomas (Little St. James)
8	TIST → TEB	St. Thomas → New York

Palm Beach. Aspen. **Zorro Ranch**. Seattle. Napa. New York. Little St. James. Back to New York. All in a single day.

The multi-stop pattern across every major Epstein property suggests a **deliberate asset inspection or document retrieval tour** in the final hours before everything collapsed. The ranch was stop #3 — between Aspen and Seattle.

Epstein was arrested at Teterboro Airport on July 6, 2019.

Part VIII: The Network Map

Who Came to the Ranch

The documents place the following individuals at or invited to Zorro Ranch:

Person	Role	Evidence
George Church	Harvard geneticist, CRISPR pioneer	Curated scientist list; ranch science sessions
Jack Horner	Paleontologist (<i>Jurassic Park</i> inspiration)	Geological survey, first-class travel paid by Epstein
Martin Nowak	Harvard evolutionary dynamics	Ranch schedule; intellectual collaborator
Joscha Bach	AI researcher (\$406,500 from Epstein)	Ranch invitation, Media Lab meetings
Boris Nikolic	Bill Gates' science advisor	Commercial flight to ABQ; ranch visit confirmed
Reid Hoffman	LinkedIn co-founder	8+ documented ranch invitations

Person	Role	Evidence
Joi Ito	MIT Media Lab director (resigned)	Master schedule: ranch weekend with Hoffman
Peter Thiel	PayPal co-founder	Invited; told to bring Hoffman, Zuckerberg
Woody Allen	Director	Multiple visits with family; flew with Epstein
Leon Black	Apollo Global co-founder	Helicoptered from ABQ
Bill Gates	Microsoft co-founder	Invited: <i>“come visit, you look miserable”</i>
Noam Chomsky	MIT linguist	Invited; Santa Fe meetings
Larry Summers	Former Treasury Secretary	Invited; <i>“when do you hang out in NM?”</i>
Warren Eisenstein	Unknown	Ranch visit Oct 14–20, 2013
FBI Victim (redacted)	Victim	Abuse at Zorro Ranch documented in FD-302

Corporate Entities

Entity	Function
Zorro Trust	Asset holding; won \$80M Powerball
Zorro Development Corporation	Construction and ranch management
Zorro Management LLC	Day-to-day operations
Zorro Ranch, LLC	Property holding
3BS LLC	Ranch estimate contractor

Conclusion: The Architecture of Control

Zorro Ranch was the physical manifestation of Epstein’s operating model: a private compound where science, power, and exploitation converged beyond institutional oversight.

The same property where George Church’s genetics work was discussed was also the site

of documented sexual abuse. The same ranch where Reid Hoffman was offered “interesting scientists” was the planned facility for a breeding program. The same compound that hosted Woody Allen and Leon Black was flagged by an FBI tipster for its proximity to trafficking routes.

Epstein’s genius — if it can be called that — was making these things coexist. The scientists provided the intellectual cover. The billionaires provided the social legitimacy. The ranch provided the isolation. And the keycards, the private jets, and the shell companies provided the infrastructure that made it all possible.

He had a keycard to Harvard. He had \$9.3 million flowing through Zorro entities. He had first-class tickets booked for dinosaur experts. And he had a victim who told the FBI that Jeffrey Epstein and Ghislaine Maxwell abused her at Zorro Ranch.

All at the same GPS coordinate: 49 Zorro Ranch Road, Stanley, NM 87056.

Report generated from primary source analysis of 3,889 DOJ Epstein documents, the Unsealed email archive (73,994 threads), kabasshouse financial database (49,770 transactions), and curated intelligence dossier (5,766 documents). All EFTA references link to original documents on this site. Additional context from published reporting by the New York Times, STAT News, and the Miami Herald.
